Art Unit: 1732

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art does not teach or fairly suggest an apparatus for making a container and associated integrally molded closure by blow molding an extruded parison in moveable mold blocks, the limitations: the mold blocks cooperate to form both a blow molded container forming cavity with an extendable first blow pin, and a separate closure forming cavity, which includes a blow molding section and a compression molding section; and a second blow pin extends into the blow molding section of the closure forming cavity. Close prior art is Arnold et al. (US Patent 6,290,094) which teaches a container cavity and a closure-forming cavity, but does not teach that the closure-forming cavity has a blow molding section. Also of interest is Hestehave et al. (US Patent 4,759,708) and Andersen (US Patent 4,954,310), both of which teach dual blow pins, but do not teach the closure-forming cavity.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
